

IMMEDIATE ACCESS

THE IOWA STATE **DIGITAL CONTENT** SOLUTION

Immediate Access is a collaborative program between the ISU Book Store, faculty and publishers. Students that are enrolled in an Immediate Access course will receive access to all required course materials on the first day of class and at a reduced cost compared to the national average.

IMMEDIATE ACCESS OFFERS:

- Day 1 access to digital course materials through Canvas LMS
- Robust interactive digital content and ebooks
- Reduced course materials cost compared to current print and digital options
- Increased student engagement with added measurable data components
- Eliminates need for multiple access codes
- Also available for non-traditional course materials outside of Canvas. (i.e. e-lab notebook, assessments)

HOW DOES IMMEDIATE ACCESS WORK?

For Faculty

- Faculty collaborate with their publisher representatives and the ISU Book Store to coordinate course materials and cost savings
- Faculty receive instructions to set up their course materials within the LMS
- The ISU Book Store communicates the program to enrolled students via student book list in AccessPlus
- Once the content is published by the faculty, students log into the LMS and access their materials on Day 1 of class

For Students

- When a faculty member chooses Immediate Access for any course, details will be posted in the student book list
- Upon enrollment in the course, the charge will be automatically billed to the student's university account (U-Bill)
- Students will receive access to the digital course material through Canvas LMS on the first day of class
- An opt-out option is available or students will be automatically refunded if they drop the course in allotted time period
